## Truck Driver (m/f/d)

### Description

A professional work approach meets a hands-on mentality and a strong sense of teamwork. That's what it's like to work at INTERNATIONAAL TRANSPORT VAN EWIJK B.V. We pay special attention to the personal interests of our employees and to good collaboration between drivers and dispatchers.

**4-day workweek available for full-time!**

### CHALLENGES THAT YOU TACKLE

- You'll be driving an articulated truck and, if interested, have the opportunity to specialize.
- For instance, we offer training in swap bodies, ADR transport, or accompanying forklifts.
- You'll primarily handle domestic routes for clients in the construction, automotive, and packaging industries, without overnight stays in the truck and with predictable working hours.
- You'll adhere to social regulations, inspect cargo securing, and monitor truck technology.

### QUALIFICATIONS THAT MAKE YOU STAND OUT

- You need a Class CE driver's license with Code 95 and a valid driver card.
- You are familiar with driving articulated trucks and handling truck technology.
- Your work approach is reliable, and your demeanor is friendly.

### BENEFITS THAT INSPIRE YOU

- According to your preferences, you will be assigned to day trips with predictable working hours at our Wijchen location.
- A four-day workweek is possible for full-time positions; feel free to ask us about the options!
- There's a strong collaboration between our dispatchers and drivers, bolstered by regular team events.
- You will be working directly for the company, not through an agency. Your compensation follows the Collective Labor Agreement (CAO) for salary, allowances, and special payments.
- We invest in your development and are happy to cover the costs for Code 95 training and license renewal.
